Reg Office : Plot B103 Darshanam Antica Residency, Opp Heavy Water Tank, Danteshwar-04, Vadodara, guj  
Workshop : 78/3/G Makarpura Industrial Estate, Vadodara-09,GUJARAT

Wrist Straps are the first line of defence against electrostatic charge build up on the human body. This instrument is designed for fast, frequent testing of ESD wrist straps and Footwear. It is very simple to operate. A green light signals the user that everything is OK. A red light and an audible indicator means that the circuit resistance is either too low or too high.

## SPECIFICATIONS

Pass Range	: Wrist strap 0.75 to 10.0 meg ohm. Footwear 0.75 to 35.0 meg ohm.
Indications	: Dual colour LED: Pass – Green Fail – Red Audible Alarm for Fail mode.
Accuracy	: $\pm 10\%$
Power supply	: 9 V DC battery.
Low Battery	: Warning less than 7 volts
Dimensions	: 135 x 70 x 25
Weight	: 150 grams
Traceability	: To national standards
Warranty	: 12 months
Conformance	: EN 100 015
